GOLF ROOM**

**STRENGTHENING EACH LINK IN
YOUR JUNIOR GOLFER'S GAME**

WHAT IS THE ELITE FUTURE CHAMPIONS ACADEMY?

This half year program running from November to May is an elite off-season program allowing your junior to be surrounded by a team of coaches 3 to 4 days a week, who work day in and day out for the development of your player. Your junior golfer will work daily on their golf skills, their body, their mind, course management, nutrition, tournament preparation and scheduling, and an array of other services needed to be in the top 1%.

WHY NOT TAKE INDIVIDUAL LESSONS?

The Golf Room's Elite Junior Champions program allows your junior player to compete among like minded and skilled players 3 to 4 days a week. They will train under the watchful eye of our coaches who have either competed at the top level of golf or have helped train players at the pinnacle of the sport. Itemizing the services provided to our Elite Junior Champions would be 4x-5x higher than the academy pricing. The Junior Academy is elite and you could never get the attention and knowledge offered in this world class program on your own.

WHAT'S A TYPICAL ACADEMY DAY LIKE?

Each player is asked to arrive at the specified lesson time. Each player will be either working hands on with Kyle, Lindsay, or Todd, and or working on their own personalized practice plans throughout our prestigious indoor complex. Whether it is working on K-Vest, a specialized mental training station, or working on their short game, there is never a shortage of things that our players can do. Most importantly, TGR creates an incredibly fun yet intense environment where players work on their game without ever feeling bored.

HOW DO YOU SIGN UP?

Call (614) 747- 5006 or email Kmorris@thegolfroom.com by October 15. Hurry because space is limited and these will sell out fast! For more information visit www.thegolfroom.com under Junior Golf Programs link.

WHAT YOUR PEERS ARE SAYING

My son Jack has been going to the Golf Room's Junior Academy team of Kyle, Lindsay and Dr Kays for the past 8 months. I really liked the comprehensive "team" approach they use to assess and improve swing mechanics, strength / fitness and the mental approach to the game. In this short time, Jack has improved in every statistical category you can measure – including the most important: he's lowered his previous year's scoring average from 77.2 to 73.9. If your son or daughter has aspirations to play college golf and is passionate about the game, the Golf Room Junior Academy is a great way to prepare them for this next step

*Bill Funderburg

**THE
GOLF ROOM**

My son Kyle joined The Golf Room's Junior Golf Academy this past winter. I couldn't be more pleased with the results that Kyle has achieved over the course of the past 7 months. Swing coach, Kyle Morris, Sports Psychologist, Dr. Todd Kays, Ph.D., and Sports Physical Therapy Specialist Lindsay Becker are all together a Power Team of Knowledge.

What Kyle needed was a team of experts that specialized in helping him improve his game technically, mentally, and physically. Having all three combined has not only helped Kyle improve his golf game but has also helped him exceed one of his goals by increasing his Junior Golf Scoreboard ranking by 1,200 spots.

I strongly recommend The Golf Room's Junior Golf Academy Program if your child is wanting to improve their golf game
